

BASL – INCLEMENT WEATHER PROCEDURES

Inclement Weather Process:

- Games must stop immediately upon sight of lightning.
- Games may continue after the storm has passed provided that field or diamond conditions are safe and there is enough remaining light and permit time to complete the game.
- In most cases the captains (Ultimate), convenors (Beach Volleyball) or umpires (Softball) must decide at the venue, field or diamond if the game will be cancelled due to rain or unsafe conditions.
- Occasionally games may be cancelled in advance by either B.A.S.L. or The City of Burlington through facility closures. In these instances:
 - o All team captains and/or representatives will be updated at the earliest opportunity via the WhatsApp Team Captain's Chat Group, (if applicable).
 - o Our Website at www.basl.ca will be updated with a Program Cancellation Notice.
 - o An email notification may also be sent to all team captains and representative when possible as a backup notification process.
- For reference, the **City of Burlington Field Closures Notification** can be found by [Clicking Here](#).
